PROGRAMATOR TM-PROG

CATALOG CODE
TM-MN.RFID002

TM-PROG Programmer

- is a programming device used to read and save addresses of lighting fittings that are compliant with TM-CB A or DATA 2 system.
- Programming is executed in a wireless mode that provides for operation without connecting lighting fittings to a power supply.
- The programming device has a built-in battery that offers long operating time, and the current consumption is shown on a display.
- The provided charging socket lets the device be charged by using universal chargers or by connecting them to a computer.
- The programming device has an ergonomic casing that protects the device against mechanical damage and prevents accidental slipping from the hand.
